DELTA BROADBAND MAPPING PROJECT

TAKE THE DELTA SPEED TEST

The Delta Region, especially rural areas, has been shown to lack adequate digital infrastructure to support access to critical services such as healthcare, distance learning, and remote work. In response to these challenges, the DRA announced the Delta Broadband Mapping Project.

Through an innovative crowd-sourcing platform, DRA is undertaking a regional internet speed testing initiative to support data-driven policy and decision making. The goal of this project is to create a regional map of internet availability and speeds.

The Delta Speed Test takes less than 60 seconds and can be completed from any device that has an internet or cellular connection to your home Wi-Fi signal.
